

Department of Mental Health – Vacaville Psychiatric Program

Supplemental Application

1. Sample Report

Please provide a de-identified sample psychological report. This report should contain, at minimum, results from three standard psychological assessment measures and sections containing background history, clinical formulation, diagnosis, and summary/conclusions.

2. Essay Question

In 300 words or less, please describe a complex work experience you have had and how you resolved it.

3. Assessment Measure Checklist

Please complete the following checklist. First, indicate the total for each of the following instruments that you have interpreted as a part of a clinical integrative assessment (not just administered for a class or research). Second, please indicate the total number of intake assessments and number of integrative batteries you have completed. Third, please list the total number of testing hours you have conducted in a formal practicum outside of assessment class. If you administered the test but did not interpret it (i.e. for research), do not count it. Finally, please list all projective measures that were covered in your graduate coursework.

Instruments	# of times administered and interpreted as part of an integrative report
WAIS-III; WAIS-IV	
WISC-IV; WPPSI	
WASI	
Rorschach Inkblot	
TAT	
PAI	
MMPI-2; MMPI-A	
MCMI-III; MPACI; MACI	
CVLT-II	
WMS-III; WMS-IV	
WCST-II	
Trailmaking A & B	
PCL:R, PCL:SV, PCL:YV	
VRAG	
HCR-20/SVR-20	
Other cognitive instrument	
Other personality instrument	
Other neuropsychological instrument	

Total # of Integrative Reports	
Total # of Intake Assessments	
Total # of Psychodiagnostic Testing Hours	
Total # of Neuropsych Testing Hours	
Total # of Risk Assessment Testing Hours
